

This environmental impact report (EIR) was prepared by EDAW in cooperation with the other members of the flood control study team. EDAW was responsible for project management and EIR preparation. The EIR technical team and other flood control study team members provided technical expertise, as presented below.

EIR TECHNICAL TEAM (EDAW)

Principal-in-Charge – Phil Dunn

Program Manager, TRLIA Projects – Roberta Childers

Project Manager – Sean Bechta

Assistant Project Manager – Jeanine Hinde

Senior Editor – Julie Nichols

Land Use – Jenifer King

Geology, Soils, and Mineral Resources – Wendy Copeland

Water Resources and River Geomorphology – Diane Wagner

Fisheries – Chris Fitzer

Terrestrial Biological Resources – Anne King, John Downs, Petra Unger, Tammie Beyerl

Recreation – Jenifer King

Aesthetic Resources – Pete Choi

Cultural Resources – Richard Deis, Brian Ludwig

Air Quality – Honey Walters, Heather Phillips

Noise – Honey Walters, Heather Phillips

Transportation – Pete Choi

Public Services, Utilities, and Service Systems – Jason Barrett

Paleontological Resources – Wendy Copeland

Cumulative Impacts – Jenifer King

Other CEQA Requirements – Jeanine Hinde

Alternatives – Sean Bechta

Consultation and Coordination – Julie Nichols

Document production – Debby Jew, Gayiety Lane, Amber Martin

Graphics – Brian Perry, Lorrie Jo Williams, Christy Anderson

GIS – Phi Ngo

THREE RIVERS LEVEE IMPROVEMENT AUTHORITY (LEAD AGENCY)

Paul Brunner – Executive Director

Ric Reinhardt, MBK Engineers – Program Director

Brian Boxer, EIP Associates – Environmental Manager

Larry Dacus, MBK Engineers – Engineering Manager

OTHER FLOOD CONTROL STUDY TEAM MEMBERS AND ROLES

GEI Consultants (engineering design) – Dan Wanket, Alberto Pujol

MBK Engineers (hydrology and flood operations) – Don Trieu

PWA Environmental Hydrology (geomorphology) – Chris Bowles, Andrew Collison
